

MAGNIFICENT LIONS

Magnificent Lions thundered onto the Chattanooga, TN music scene in 2018 with their aggressive, cryptic, baritone rock sound. They became a staple in the area for any lineup needing an act committed to delivering a tone-heavy, aggressive experience infused with indie rock sentimentality. Magnificent Lions' self-titled debut album was released on January 1, 2019, and they are currently writing a follow-up EP, which they plan on tracking live and releasing later in 2019.

Their self-titled debut album is a shot of fresh air across the bow of an increasingly bloated music industry. Written and performed exclusively by MagLi's frontman, Tyler Bradford, it delivers a ten-track journey through almost a decade of songwriting.

Live, and with the help of a permanent band, the songs take on a new life expressed through energy, emotion, and raw aggression—and demonstrate what new directions the band will be heading in the endeavors to come.
